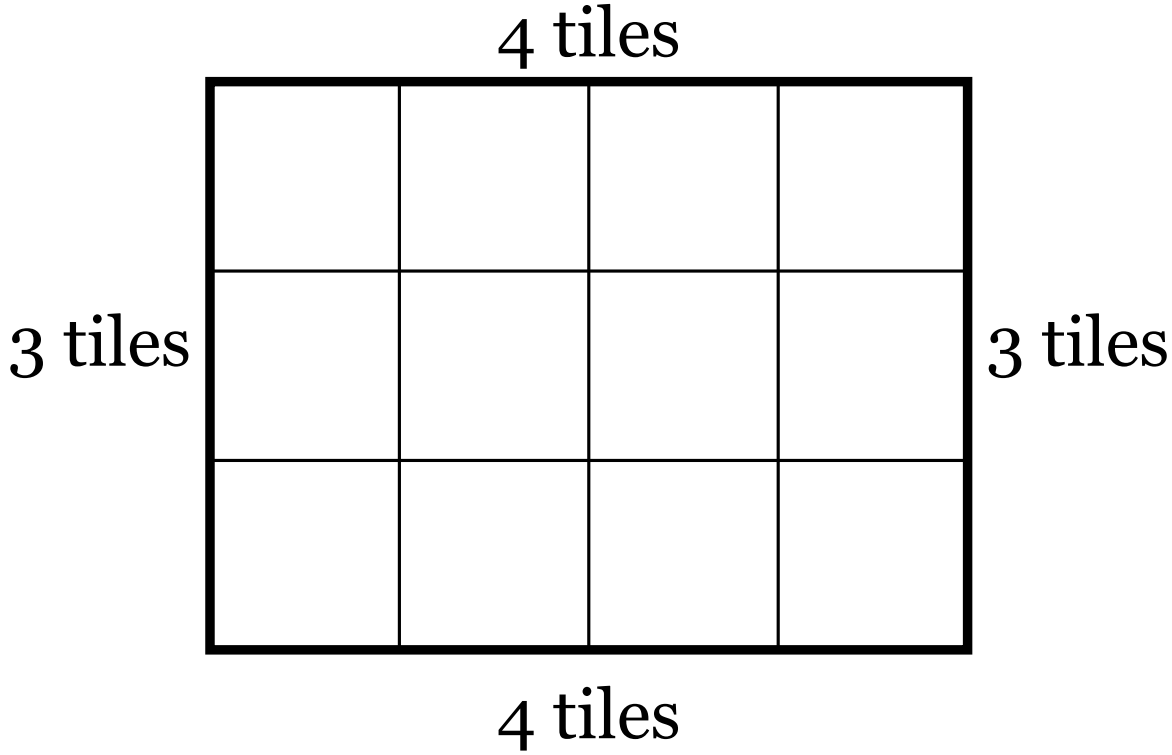
Day 1: Every rectangle for a number

Name _____ Date _____

I can build every rectangle for a number and write each one as a multiplication.

Build along with tiles. Are all the rows full? Then fill in each line.

Example 1. Build 3 rows of 4 tiles. How many tiles is that? Write the multiplication inside.



___ rows of ___ is ___ tiles. ___ × ___ = ___

Example 2. Use the same 12 tiles. Can they make 2 equal rows? Can they make 5 equal rows?

2 rows: ___ in each row. ___ × ___ = 12

5 rows: yes or no? _____ Why? _____

Example 3. Put all 12 tiles in 1 row. Is it a rectangle? Write the multiplication.

___ × ___ = 12

Words. 3 and 4 are _____ of 12. 12 is the _____.

___ and ___ are a factor pair of ___, because ___ × ___ = ___.

Every rectangle. Build with tiles. Draw each one on grid paper with its multiplication inside. Then write them here.

1. Build every rectangle you can with 18 tiles.

   _____

   _____

2. Build every rectangle you can with 20 tiles.

   _____

   _____

3. Build every rectangle you can with 16 tiles.

   _____

   _____

4. Build every rectangle you can with 15 tiles.

   _____

   _____

Challenge. Find a number of tiles that makes exactly 2 rectangles. One of them must be a square. Draw them on grid paper.

My number: _____ ___ × ___ = ___ ___ × ___ = ___
