Day 17: Half of what?

Name _____ Date _____

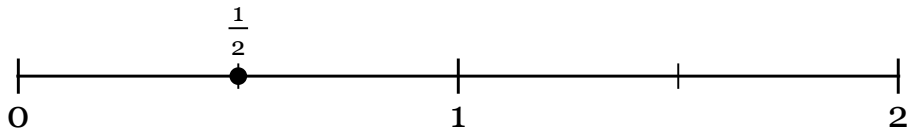

I can say why two fractions must be of the same whole, and use 1/2 to compare.

Warm-up. Fill in the blank: $\frac{1}{2} = 6/__$. _____

Example 1. Ms. Ruiz has a 10-inch strip and a 6-inch strip. She folds each in half. How long is each half? Is each one $\frac{1}{2}$?

The halves are ____ inches and ____ inches. Each one is ____ of its own strip.

Example 2. Compare $\frac{2}{5}$ and $\frac{5}{8}$. Use $\frac{1}{2}$.

____ < 1/2 and 1/2 < ____, so ____ < ____.

Fix it. Each answer is wrong. Say what went wrong. Then do it right.

1. Rio says: "Half a large pizza is more food than half a small pizza. So this $\frac{1}{2}$ is greater than that $\frac{1}{2}$."

   What went wrong: _____

2. Kim says: "$\frac{4}{10}$ is more than $\frac{1}{2}$, because 4 and 10 are bigger."

   What went wrong: _____

Curio Class, grade 4 math, day 17, version draft 1, not ready, not yet taught, CC BY 4.0, curioclass.org

Sort. Sort each fraction: less than $\frac{1}{2}$, equal to $\frac{1}{2}$, or more than $\frac{1}{2}$. $\frac{1}{10}$, $\frac{2}{12}$, $\frac{30}{100}$, $\frac{4}{8}$, $\frac{3}{6}$, $\frac{7}{12}$, $\frac{70}{100}$, $\frac{6}{8}$, $\frac{7}{5}$, $\frac{3}{3}$ Write each fraction in its column.

Less than 1/2	**Equal to 1/2**	**More than 1/2**

You may mark them here.

On your own. Compare each fraction with 1/2 first.

1. Write >, = or <: $\frac{35}{100}$ __ $\frac{4}{5}$.

   ____ is less than 1/2 and ____ is more than 1/2, so ____ < ____. Answer: _____

2. Write >, = or <: $\frac{9}{12}$ __ $\frac{45}{100}$.

   Answer: _____

Challenge. Write every fraction in tenths that is more than 0 and less than $\frac{1}{2}$. How do you know you have them all?
