Day 72: What is the small 1 worth?

Name _____ Date _____

I can add big numbers in columns and say what each small 1 is worth.

Warm-up.

1. 573 + 248 _____	2. 806 – 462 _____
3. 6 × 8 _____	4. 9 × 4 _____

Example 1. Add 3,746 + 2,538. Use expanded form and the standard algorithm.

Place by place: _____ + _____ + _____ + _____

	thousands	**hundreds**	**tens**	**ones**
small 1s				
	3	7	4	6
+	2	5	3	8
sum				

___ ones is 1 ten and ___ ones. ___ hundreds is 1 thousand and ___ hundreds.

Example 2. Add 1,895 + 4,368. Use expanded form and the standard algorithm.

Place by place: _____ + _____ + _____ + _____

	thousands	**hundreds**	**tens**	**ones**
small 1s				
	1	8	9	5
+	4	3	6	8
sum				

___ tens is 1 _____ and ___ tens.

Both ways. One partner writes expanded form, one columns. Swap for 6.

5. 5,189 + 2,647

6. 3,578 + 4,293

Columns alone. Add on your column sheet. Write here what each small 1 is worth.

7. 6,358 + 1,794 Small 1s worth: _____	8. 4,926 + 3,587 Small 1s worth: _____	9. 27,465 + 18,379 Small 1s worth: _____
10. 53,618 + 29,754 Small 1s worth: _____	11. 36,847 + 45,286 Small 1s worth: _____	

Fix it. Each sum is wrong. Say what went wrong. Show the step on Example 1.

12. Kai added 3,746 + 2,538 and got 6,274.

    What went wrong: _____

    Right sum: _____

13. Mia added 3,746 + 2,538 and got 512714.

    What went wrong: _____

    Right sum: _____

Challenge. Add 2,758 + 1,469 + 3,684. What is the small number over the tens worth? Use grid paper.

Sum: _____ The small number over the tens is worth _____.
